LOWERING COSTS

PRINT COSTS IN AN UNMANAGED PRINT ENVIRONMENT ARE LINKED HEAVILY TO RUNNING COSTS.

THESE COST INCLUDE TONER/INK, PARTS AND TIME TO REPAIR. A MANAGED PRINT SERVICE CAN USUALLY SAVE A BUSINESS MONEY BASED ON TONER COSTS ALONE.

ASSESSING SAVINGS

The high cost of ink and toner in consumer printers mean that they quickly become expensive if you print regularly. Finding the right device for your print usages is key to both reliability and cost effectiveness.

ASSESSING WHETHER A SAVING CAN BE MADE IS IMPORTANT TO MAKE AN INFORMED DECISION ON HOW GREAT, OR IN FACT IF, A SAVING CAN BE MADE. THE TOTAL RUNNING COSTS ARE DETERMINED LARGELY BY THE PRINT VOLUME, GETTING AN ESTIMATE OF MONTHLY PRINTED SHEETS IS ESSENTIAL TO DETERMINE THE MOST COST-EFFECTIVE OPTION FOR YOU. THIS INFORMATION CAN BE OBTAINED FROM YOUR EXISTING PRINTERS COUNTER REPORT.
